Summary

As a bilingual recruiter with 2 years of specialized experience in high-volume and financial recruitment within the BPO sector, I have developed a profound understanding of talent dynamics in the business environment. In addition to my human resources background, I am a passionate Java developer with expertise in technologies such as SpringMVC, REST, Spring Security, PHP, MySQL, JDBC/JPA, JUnit, and Git. My ability to merge the strategic vision of recruitment with technical skills in software development allows me to thoroughly grasp the needs of my team and ensure a perfect alignment between talent and projects. I am committed to continuous professional growth and the creation of highly efficient and collaborative teams. Let's connect and explore new opportunities together!
